Professional Experience

JavaScript Developer at SpiceTech Solution Pvt Ltd , Kota, Rajasthan

July 2024 - Present

Currently working as a JavaScript developer, focusing on developing a variety of shopping applications. Specialize in using JavaScript, jQuery Bootstrap, and HTML/CSS to create responsive, visually appealing, and user-friendly interfaces. I work on optimizing front-end performance while ensuring seamless interaction with back-end systems. Additionally, I focus on delivering features that enhance the overall user experience, making the applications more intuitive and functional for customers.

Jr Frontend Developer at Allen Career Institute. , Kota, Rajasthan

Feb 2022 - June 2024

Engineered and optimized front-end web applications using JavaScript, HTML, and CSS, leading to a 40% reduction in load times. Built and optimized interactive web applications using React JS, improving user engagement by 30% Implemented asynchronous request handling with the Fetch API, resulting in a 40% reduction in server response time and enhancing user experience with smoother and faster partial page updates

Full Stack Trainer at Codingal Technologies Pvt Ltd, Bangalore,Karnataka

Sept 2021 - Jan 2022

Conducted virtual lectures and interactive educational activities for middle school students, exemplifying adaptability and adept communication in the dynamic realm of online teaching.

Python Trainer & Curriculum Developer at Code 13 Edutech Pvt. Ltd

June 2021 - sep 2021

Led virtual Python instruction for middle school students, leveraging advanced tools like Jupyter Notebook to create an interactive and immersive learning environment.

Projects

Product Management System | React, Nodejs, Express, Mongodb, JWT

- (CRUD)Users can add, update, view, and delete products in the inventory.
- Users log in with an email and password. A special code (JWT) is created upon successful login
- User interface is built with React, Node.js handles the server-side logic (processing requests and data)
- Products and login information are stored in MongoDB.

KwikNotes | React Js, Javascript, HTML, CSS, Bootstrap, EmailJs

A website for the computer department Students. Using a combination of HTML, CSS, JavaScript, Bootstrap and leveraging version control with Github and Git, I created a user-friendly website that offers a centralized repository of semester notes and crucial study materials

Personal Portfolio | React Js, Javascript, HTML, CSS, Bootstrap, PHP

I've built my personal portfolio website using HTML, CSS, and Bootstrap for responsive design. JavaScript and Query were employed for interactivity, while PHP added dynamic functionalities. Git and Github ensured efficient version control and collaboration during development, showcasing my full-stack web development skills
